WORK EXPERIENCE

Java Full Stack Developer (Sep 2024 – Feb 2025)

- Developed Student Record System using Java and web technologies
- Designed responsive UI using HTML, CSS, and JavaScript
- Implemented backend logic and data handling

DisGen International Pvt. Ltd. Intern (Mar 2025 – June 2025)

- Managed and optimized SQL databases for efficient data handling
- Developed queries for CRUD operations (Create, Read, Update, Delete)
- Designed database schemas and tables
- Supported backend development tasks using SQL

EDUCATION

Bachelor of Computer Application (BCA) (Sep 2021 – May 2024)

Kalish Institute of Management

- Relevant Subjects: Programming, Database Management, Web Development etc.

PROJECT

Online Maintenance Management System (OMMS)

Technologies: HTML, CSS, Php

- Developed a web-based Maintenance Management System to streamline tracking and management of organizational assets and equipment.
- Designed and implemented a user-friendly frontend using HTML and CSS for efficient navigation and accessibility.
- Built backend functionality using Php to handle maintenance scheduling, data processing, and system operations.
- Enabled centralized monitoring of maintenance activities, improving operational efficiency and reducing downtime.

Online Learning System

- Developed a responsive Online Learning website where students can access learning materials and courses.
- Designed multiple pages such as Home, About, Courses, and Contact Page
- Implemented responsive design so the website works on mobile, tablet, and laptop screens.
- Created a Contact Form to collect student queries and store data in the database.
- Added navigation bar, images, videos, and course sections to improve user experience.

Personal Portfolio Website

- Developed using HTML, CSS, and JavaScript
- Responsive design for all devices
- Showcases projects and skills
